

Calport is looking to invest in / provide funding to a web development agency in India

System Administrator - 2022-08-06 00:34

We are looking for a young and energetic team who needs funding to grow. We are looking for someone who was like Calport used to be twenty-five years ago. If we find the right team, we will be able to invest upto 1 crore in the hope that this team will do the great things in the next twenty-five years that Calport has done in the last twenty-five.

Do you have a strong IT team, good leadership and an ambitious plan for the future? Is funding the only thing holding you back from multiplying your market share? If so, tell us a bit about yourselves by filling out the form below and then we could talk.
